PROFESSIONAL PROFILE Highly skilled Senior iOS Engineer with 8+ years of experience specializing in high-performance mobile architectures for the Fintech and Startup sectors. Proven track record in leading distributed engineering teams, scaling applications from MVP to mass-market adoption, and modernizing legacy codebases. Passionate community leader and mentor, dedicated to fostering technological growth through the Google Developer Groups (GDG) and educational content creation. Committed to code quality, collaborative problem-solving, and continuous learning.

CORE COMPETENCIES & TECHNICAL SKILLS **Mobile Development:** Swift, SwiftUI, UIKit, Objective-C, Kotlin (Android), Jetpack Compose, Flutter, Dart, Java, HTML, CSS, TypeScript, JavaScript. **Architecture & Design:** Clean Architecture, MVVM, VIPER, Modularization, SOLID Principles. **Tools & DevOps:** Xcode, Android Studio, Git, CI/CD (Jenkins/GitHub Actions), Firebase, XCTest. **Soft Skills:** Technical Leadership, Mentorship, Team Collaboration, Adaptability, Public Speaking. **Languages:** Spanish (Native), English (Professional Proficiency).

PROFESSIONAL EXPERIENCE

GALILEO FINANCIAL TECHNOLOGIES | Remote *A leading financial technology company (acquired Technisys).*
Senior iOS Engineer | April 2023 – Present

- **Scalability & Architecture:** Led the architectural evolution of the Business Banking application, transforming it from a single-feature utility into a comprehensive financial ecosystem serving millions of users.
- **Feature Engineering:** Architected and deployed critical financial modules including Wire Transfers, QR Payments, Credit Card Management, and Investment Funds, ensuring bank-grade security and compliance.
- **Leadership & Mentorship:** Serve as the Lead Mobile Architect, guiding both iOS and Android squads through complex integrations. Conduct code reviews and technical workshops to upskill junior developers.
- **Performance Optimization:** Modernized the UI/UX architecture using SwiftUI and established a performance-first culture, implementing profiling tools that significantly improved app responsiveness and stability.

NEARSURE | Remote *Outsourcing services for North American tech companies (Nortal Now).* **Technical Interviewer & iOS Domain Expert** | Nov 2021 – Feb 2024

- **Talent Assessment:** Conducted in-depth technical evaluations and algorithmic challenges for Senior iOS candidates on behalf of global clients.
- **Hiring Standards:** Collaborated with recruitment teams to define engineering standards and hiring criteria, ensuring high-quality talent acquisition for distributed agile teams.

MENIUZ | Santo Domingo, Ecuador *Food-tech startup focused on restaurant digitization.* **Co-Founder & CEO** | Nov 2021 – Present

- **Product Vision & Growth:** Defined the product strategy and orchestrated a high-impact go-to-market launch, achieving **3,000+ organic downloads in the first two weeks** and acquiring **400+ B2B merchants**.
- **Technical Direction:** Lead the end-to-end product lifecycle, bridging the gap between business goals and engineering execution. Direct a cross-functional team of 6 while overseeing architectural decisions and CI/CD implementation to ensure rapid time-to-market.

TECHNISYS (Acquired by SoFi/Galileo) | Remote *Digital banking platform provider.* **iOS Developer** | March 2021 – March 2023

- **Platform Development:** Played a key role in the development of "Cyberbank," a white-label digital banking platform used by top-tier banks across Latin America and the US.
- **Feature Expansion:** Expanded core functionality from basic Authorizations to a full-service suite, including Fixed-Term Deposits and Financing modules.
- **Collaboration:** Worked closely with backend engineers and UX/UI designers to integrate secure RESTful APIs and ensure a seamless user experience across different banking tenants.

PREVIOUS EXPERIENCE

BAYTEQ | Ecuador **iOS Developer** | **Sept 2020 – Feb 2021** Developed and maintained mobile solutions for enterprise clients, focusing on code maintainability and bug reduction.

KEVIN MORALES (Freelance) | Remote **Mobile Application Developer** | **Jan 2016 – Sept 2019** Delivered custom mobile applications for various international clients, managing the full development lifecycle from requirement gathering to App Store submission.

COMMUNITY LEADERSHIP & VOLUNTEERING

GOOGLE DEVELOPER GROUP (GDG) TSÁCHILAS Community Lead & Organizer | **July 2021 – Present**

- Founding organizer of the local GDG chapter, dedicated to building a thriving tech community in Santo Domingo.
- Organize and host DevFest, a large-scale annual technology conference, managing logistics, speakers, and sponsors.
- Mentor students and early-career developers, facilitating workshops on mobile development and career growth in tech.

DEVLOKOS PODCAST Host & Content Creator | **Present**

- Produce and host a technology podcast aimed at the Spanish-speaking developer community.
- Interview industry experts to share knowledge on software architecture, soft skills, and trends in the tech industry.

EDUCATION

UNIVERSIDAD DE LAS FUERZAS ARMADAS - ESPE | Ecuador **Engineer's Degree in Electronics and Automation** Equivalent to a Bachelor of Engineering (B.Eng.)
